8 WAYS EXCEL HQ HELPS INSTRUCTORS, TRAINERS & COACHES

Excel HQ is a growing community of professional instructors, trainers and coaches involved in personal fitness and wellness, music education, martial arts, performing arts, sports instruction and more. Excel HQ was created to solve a common problem we see and to create an opportunity we envision.

THE PROBLEM WE SEE

While professional service providers have the unique knowledge and passion to help their clients excel in their life activities, they often lack the skills or interest to effectively manage their business. And who can blame them as many of these business tasks are administrative paperwork oriented, time-consuming and often boring. How many of the following characteristics are familiar to you for your business:

- Client contact information is disorganized or missing
- Session scheduling is manual, often paper-based and bottlenecked on the service provider
- Sessions and payments tracked on paper by hand
- Time wasted chasing payments often leading to getting paid late
- Time wasted repetitively preparing and sharing lesson/activity plans
- No reports or other insight available to help manage and grow the business

Find yourself with two, three or more of these characteristics and your business will suffer from:

- Wasted time
- Missed opportunities
- Lower revenue and profits
- Client dissatisfaction
- Professional Burnout

If any of this seems familiar to you, you're not alone. By some estimates, individual instructors, trainers and coaches spend, on average, 8.5 hours per week on administrative tasks and paperwork. And remember, this is not the glamorous parts of our work. No wonder there is a lot of professional burnout.

The Excel HQ online service was created to solve the problem of burdensome administrative tasks for professional service providers such as you.

BENEFIT #1 - EXCEL HQ SOLVES THE INFORMATION ORGANIZATION PROBLEM

Excel HQ provides a powerful database to securely store and retrieve important information about your clients. Gone are the days of fumbling through disorganized desk files and scraps of paper notes to find the information you need.

BENEFIT #2 - EXCEL HQ SOLVES THE SCHEDULING PROBLEM

The Excel HQ calendar makes it easy for you to keep track of all of your scheduled sessions along with other business and personal appointments. To prevent missed sessions, you can optionally select to send a personalized email reminder notice to all attendees.

Keep track of your sessions in the integrated calendar.

Eliminate no-shows and late arrivals! Tell Excel HQ to send your 'forgetful' clients appointment reminders.

BENEFIT #3 – EXCEL HQ SOLVES THE SESSION TRACKING PROBLEM

By far the easiest way for you to track sessions with your clients is to use your Smart Phone to scan your client's personalized ZoneCode[™] barcode which they get by registering at <u>TouchPoint Zone</u>, the client portal companion website for Excel HQ. This will automatically record a session transaction for that client with you.

Alternatively, if you have a computer connected to the internet at your studio, you can simply bring up the Excel HQ Client Welcome screen which your clients will use to "sign-in" when they arrive for their session. Excel HQ will log a session for each of your clients that sign-in using the Client Welcome screen.

Finally, if you do not have access to the internet at your studio you can easily use the calendar from your account back at your office to display and approve a list of all sessions that were scheduled occur on or before a specific date.

To easily record a client session, use your smart phone to scan your client's unique ZoneCode™.

BENEFIT #4 - EXCEL HQ SOLVES THE 'GETTING PAID' PROBLEM

To help ensure you get paid in a timely manner, Excel HQ can send a personalized payment reminder email to any of your clients that have a payment coming due. Excel HQ can include a link in the reminder email to enable your clients to pay you through the industry leading PayPal® payments service. PayPal will notify Excel HQ when it has finished processing their payment and Excel HQ will automatically create a payment transaction for that client, keeping your records up to date.

THE OPPORTUNITY WE ENVISION

Households often want to work with multiple service providers. For example, mom may be at the gym with a personal trainer, dad may be taking golf lessons with the local pro, and little Susie is taking dance lessons before going to martial arts class with her brother Johnny. A hidden, interconnected network exists between various service providers and the community of their clients. This interconnected network represents an untapped source of new clients for service providers. To help you realize the value of this interconnected network, we have created <u>TouchPoint Zone</u>, the companion client portal website for Excel HQ.

BENEFIT #6 - THE TOUCHPOINT ZONE CLIENT PORTAL EXTENDS THE SERVICES YOU CAN PROVIDE

Time is valuable. The TouchPoint Zone client portal creates a convenient, connected ecosystem so you and your clients can make the most of your time together.

The TouchPoint Zone Dashboard gives your clients key information at a glance.

Your clients can access Lesson/Activity plans you have created that further capture your unique approach and enable your clients to continue their progress.

LET EXCEL HQ HELP YOU CONTROL YOUR BUSINESS AND FIND NEW CLIENTS!

Remember, none of us really like to be bothered with the boring, time consuming administrative tasks required by our businesses that keep us from spending more time with our clients. And while nobody went out of business because they didn't use Excel HQ to streamline this drudgery, they might wish they had! Plus, it's rare that our businesses have all the clients we would like. Now is the time to let Excel HQ help you control your business and connect with others. The next steps are simple:

- ✓ Simply sign-up at Excel HQ. It's free and easy.
- ✓ Customize the useful defaults to add your personal touch.
- ✓ Encourage your clients to get their personal ZoneCode™ at TouchPoint Zone. It's also free and easy for them to sign-up and makes session sign-in and tracking a breeze.
- ✓ Best of all, once you customize your Excel HQ account you can sit back and let Excel HQ help you be more productive, improve your cash flow and grow your business. It's not 'One more thing to do' It's a whole lot less to do!
- ✓ Spread the word to other professional service providers you know. The more clients we can get signed up at TouchPoint Zone, the more potential clients all our service providers have. Together, let's make this community go viral!
